Black-Topper[®] **Centennial Series** **PARTS MANUAL**

E. D. ETNYRE & CO., Oregon, Illinois 61061

M-101-99

Black-Topper® Centennial Series Asphalt Distributor

PARTS MANUAL

HOW TO ORDER PARTS

To assure prompt delivery when ordering parts, please furnish the following information: **1)** Complete name and address of consignee. **2)** Method of shipment preferred. **3)** Is shipment to be prepaid or collect? **4)** Serial numbers of units to which parts apply. **5)** Complete part numbers and descriptions. **6)** Any special instructions. Part numbers beginning with 9250000 are category numbers and must include descriptive term to complete the order (such as, length, color, etc.). These items when listed in the parts manual will indicate what information must be included.

Specify unit serial number when ordering parts!

WARRANTY

E.D. Etnyre & Co. warrants to the original Purchaser, it's new product to be free from defects in material and workmanship for a period of twelve (12) months after date of delivery to original Purchaser. The obligation of the Company is limited to repairing or replacing any defective part returned to the Company and will not be responsible for consequential damages or any further loss by reason of such defect.

The company excludes all implied warranties of merchantability and fitness for a particular purpose. There are no warranties, express or implied, which extend beyond the description of the goods contained in this contract.

This warranty does not obligate the Company to bear the cost of machine transportation in connection with the replacement or repair of defective parts, nor does it guarantee repair or replacement of any parts on which unauthorized repairs or alterations have been made or for components not manufactured by the Company except to the extent of the warranty given by the original Manufacturer.

This warranty does not apply to:

- (1) Normal start-up services, normal maintenance services or adjustments usually performed by the selling dealer, factory service representative or customer personnel.
- (2) Any product manufactured by E.D. Etnyre & Co. purchased or subjected to rental use.
- (3) Any product or part thereof which shows improper operation, improper maintenance, abuse, neglect, damage or modification after shipment from factory.
- (4) Any product or part thereof damaged or lost in shipment. Inspection for damage should be made before acceptance or signing any delivery documents releasing responsibility of the delivering carrier.

This warranty and foregoing obligations are in lieu of all other obligations and liabilities including negligence and all warranties of merchantability or otherwise, express or implied in fact or by law.

Reporting Safety Defects

If you believe that your vehicle has a defect which could cause a crash, injury, or death, you should immediately inform the National Highway Traffic Safety Administration (NHTSA) in addition to notifying E.D. Etnyre & Co.

If NHTSA receives similar complaints, it may open an investigation. If it finds a safety defect exists in a group of vehicles, it may order a recall and remedy campaign. However, NHTSA cannot become involved in individual problems between you, your dealer, or E.D. Etnyre & Co.

To contact NHTSA, you may call the Auto Safety Hotline too-free at 1-800-424-9393 (or 366-0123 in the Washington, D.C. area). Or, you may write to: U.S. Department of Transportation, Washington, D.C. 20696. You may also obtain other information about motor vehicle safety from the Auto Safety Hotline.

E.D. Etnyre & Co., Oregon, Illinois 61061, Phone Area Code 815/732-2116, Cable Address "EDECO".CALIFORNIA

WARNING **Fluoroelastomer handling**

Some "O" rings and seals used in this vehicle are made from fluoroelastomers. When used under design conditions, fluoroelastomers do not require special handling. However, when fluoroelastomers are heated to temperatures beyond their design temperature (around 600 degrees Fahrenheit), decomposition may occur with the formation of hydrofluoric acid. Hydrofluoric acid can be extremely corrosive to human tissue if not handled properly.

A degraded seal may appear as a charred or black sticky mass. Do not touch either the seal or the surrounding equipment without wearing neoprene or PVC gloves if degradation is suspected. Wash parts and equipment with 10% lime water (calcium hydroxide solution) to neutralize any hydrofluoric acid.

If contact with the skin occurs, wash the affected areas immediately with water. Then rub a 2.5 calcium gluconate gel into the skin until there is no further irritation, while seeking prompt medical attention.

Note to physicians: For advice or treatment of HF Burns, call the DuPont Medical Emergency Number 1-800-441-3637.

This manual covers standard features and options. If your unit incorporates custom features, some of the information contained in this manual may not apply. If you have any questions regarding this manual or your unit, contact your dealer or the E. D. Etnyre Service Department at 1-800-995-2116

Proposition 65 WARNING

Diesel Engine exhaust and some of its constituents are known to the State of California to cause cancer, birth defects, and other reproductive harm.

Please note this warning and remember -

Always start and operate the engine in a well-ventilated area;

If in an enclosed area, vent the exhaust to the outside;

Do not modify or tamper with the exhaust system.

Serial Number Plate Location

The Serial Number Plate is a brass plate located on the left side of the vehicle toolbox. Generally, the serial number has a letter prefix followed by four numbers.

The unit serial number is also stamped on the left front tank mounting leg.

General Identification

WARNING AND INSTRUCTION PLATES

For operator safety and possible liability protection, all Safety and Instruction Plates should remain in place and be legible.

Should a plate be removed, lost, or become illegible, reorder and replace it immediately.

If plates become difficult to read because of material coating the surface, clean with solvent.

RADAR SPEED SENSOR INSTALLATION (Dickey Johns Radar) Used prior to February 1999

NOTE: If the display shows feet traveled less than an actual measured course decrease the mounting angle, change from 35° to 34°.

If the display shows feet traveled more than an actual measured course increase the mounting angle, change from 35° to 36°.

One degree change in angle changes the readout approximately one percent.

HYDRAULIC PUMP DRIVE - CRANKSHAFT DRIVEN

90 Series Pump

Custom Adapter
(where required)
Specify Distributor
serial number.

To obtain tube length "A", measure
pump shaft to crank end of truck engine
(or adapter if required) and subtract 12.5"

AUXILLARY PUMP NOTE

Ref. 27, when ordering New Auxillary Pump
please specify RH or LH Main Pump.

Please Note: Crankshaft driven units are LH pump.

					AR - AS REQUIRED		

AR - AS REQUIRED

HYDROSTATIC DRIVE SYSTEM - PTO DRIVEN

40 Series Pump

LH - Left Hand Pump Shown

For RH Pump - Auxillary Pump Suction Hose (Ref.4) is on top and discharge to solenoid (Ref. 37) is on bottom.

Ref. 33 - Main Pump:

Disconnect "A" and connect to "B"

Disconnect "B" and connect to "A".

See "Drivelines - PTO to Hydraulic Pump".

Install Sight Glass (Ref.14)
using a 6 or 12 point socket.

IMPORTANT

Fill reservoir with clean Texaco Rando oil HD 46, or Sunoco Sunuvis 821WR or equivalent hydraulic oil.

HYDROSTATIC DRIVE SYSTEM - PTO DRIVEN

AR - AS REQUIRED

MULTIPLE FOLDING WINGS - SPRAY BAR

WARNING

Do Not Handle Viton O-Rings if they have been Burned!

Viton O-Rings are Used in Suction Valves, Ball Joints and Bar Swivels.

NOTE: Assembly/Disassembly of Swivel Joints (Ref. # 6). There are 47 steel balls in each swivel joint. All balls must be removed before joint can be disassembled.

Please Note: Ref. #s 21 & 22 are NOT included in Ref. #s 1 or 36 assemblies.

ATTENTION: Nozzles are NOT included with Spraybar sections. Nozzles must be ordered separately.
